Application as Computer Programmer

JOB-ID: 123456-789

Dear Ladies and Gentlemen,

My several years of experience in converting requirements into logical flow charts, writing efficient and flawless programs and explain my code to technical and non technical peers might be an advantage for your company and increase your revenue. My several years of experience in [three most relevant keywords] might be an advantage for your company and increase your revenue.

As a working student for company xyz I wrote several programs and created also logcial flow charts for sophisticated process in the area of xyz and released these programs to production. In the same role, I presented my programs and code in convincing and understandable way to external stakeholders as well as other programmers and created additional programming projects. My documentation, which I have created with the tool xyz was used frequently and helped other programmers to understand my code and I updated my documentation ona daily basis. I have also experience in tracking successfully inventory when I worked in a project for company xyz where we build up a inventory data base for more than 10 million different products using MS SQL database, Java as programming laguage and using workflow chart and diagram.

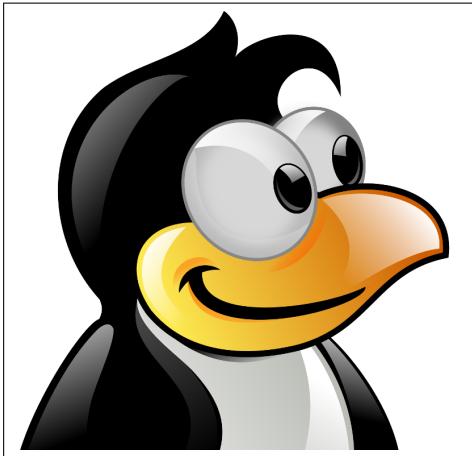

This position fits well to my strenghts in the area of developing software, wirting documentation and I can apply my interest in modern IT topics as well as my experience in explaining complex programming strucutures in an understandbale way. My earlierst starting date is the 1st of January 2030 and my expected salary are 250.000 \$.

Best Regards

Hans im Glück
